

### **MVDA In Person Dance Class-**

#### **Covid Procedures -**

- Please check your child's temperature prior to coming to the studio and complete the COVID Questionnaire each time you come (available on the website).
- Parents and students must wait outside the studio until it is your turn to enter. The sidewalk is taped for physical distancing. Your instructor or front desk staff will let you in when it's time. Please arrive just a few mins before class as the lobby is closed.
- At this time, you will be asked if you have completed your COVID Questionnaire and be given hand sanitizer before entering. If you haven't already completed your questionnaire, you can answer the questions with your instructor or front desk staff.
- Masks need to be worn inside the studio. Students may remove their masks upon permission from their instructor in class if they are keeping distance. MVDA staff will be wearing masks at all times.
- Students will be given a small bin to hold any necessary personal items such as water bottles, asthma puffers, epipens etc. Please don't bring unnecessary items.
- Parents of young dancers (6 years & under) can accompany your child inside the studio and help them find a spot in the studio. Please exit the building immediately so we can let the next family in.
- For nervous students who need a bit more support or encouragement, please stick towards the back of the line if you anticipate you might take a bit more time getting them settled in.
- Classes are drop off & pick up. The lobby is closed to parents. Parents of young dancers may wish to wait outside in front of the studio or in your vehicle. Parents will be called by the front desk if you are needed by your dancer. MVDA staff will have your phone number.
- Bathroom use is for emergencies ONLY. Please have students use the bathroom at home before class or if necessary at the studio before finding a spot in class.
- Class numbers have been capped at 9 max & physical distancing will be practiced throughout classes.
- Good COVID hygiene should be practiced at all times - cough & sneeze into your elbow, wash hands well and often, use hand sanitizer, avoid touching your face etc.
- Please talk with students in advance about not touching others during class.
- Students who have a break between classes are permitted to use the downstairs lobby to eat or change. Physical distancing will be enforced & masks must be worn.
- When students have finished class, they will be ushered downstairs by their instructor for check out.
- Students will remove their items from their bin, be given hand sanitizer and helped outside by front desk staff to find a parent or guardian. Don't worry if you're a bit late, our front desk staff will keep your child inside waiting safely for you until you arrive.
- Instructors and front desk staff will clean and sanitize the studio floor and all high touch surfaces between classes.
- We will be doing our best to ensure that your children have a positive learning experience with their peers at dance class! These procedures are needed and necessary, however we will all have HUGE smiles and be super excited to actually see each other in person!! <3

**Thank you all for your cooperation and support.**

**We are so grateful to be able to dance with you again in person.  
Chaela & MVDA Team**
